Roller skis for training and racing

Marwe produces high quality composite and aluminium roller skis for cross-country ski training and roller ski racing.

Our composite roller skis are handmade in Finland using the same advanced construction as top cross-country race skis, thus providing a very natural ski feel combined with excellent vibration damping and noise reduction properties.

Marwe roller ski wheels are made using exclusive in-house developed materials, which provide outstanding wet grip and durability.

дара качеству колёс обеспечивается безупречное скольжение, а также хорошее вибро-и звукопоглощение. Ролики Marwe изготавливаются из эксклюзивно разработанных материалов, обладающих высокой износостойкостью и влагонепроницаемостью.

Rullasukset harjoitteluun ja kilpailuun

Marwen valikoimasta löydät korkealaatuiset komposiittitai alumiinirunkoiset rullasukset maastohiihdon harjoitteluun ja rullahiihdon kilpailukäyttöön.

Komposiittimallit valmistetaan käsin Suomessa samalla rakenteella kuin huippukilpasukset saavuttaen erinomaisen hiihdettävyyden sekä tärinän- ja melunvaimennuksen.

Rullasuksen rullat tehdään Marwen rullahiihtoon yksinoikeudella kehittämistä materiaaleista, joilla on erinomainen kulutuskestävyys ja märkäpito.

Rollskier für Training und Wettbewerb

Aus dem Angebot der Firma Marwe finden Sie hochwertige Rollskier mit Composite- oder Aluminiumholm für Langlauftraining oder Rollskiwettbewerb.

Unsere Composite-Modelle werden durch Handarbeit mit gleicher Struktur wie die Spitzenrennskier gefertigt. Dadurch werden sehr gute Laufeigenschaften erreicht, aber gleichzeitig die Schwingungen und die Lärmemission verringert. Die Räder der Rollskier werden aus dem von der Firma Marwe entwickeltem Material hergestellt. Sie sind sehr belastbar und haben auch bei nassen Bedingungen hervorragende Hafteigenschaften.

Rullskidor för skidträning och tävlingar

Marwes produktsortiment består av rullskidor vilkas stommar är producerat av högkvalitets Composite- eller aluminiummaterialer, skidorna är lämpliga för träning till längdåkning och rullskidåkning.

Våra Composite skidor är handbyggda i Finland med samma avancerade konstruktion som de bästa tävlingsskidorna. Konstruktionen ger en mycket naturlig skidkänsla som är kombinerad med utmärkt vibrationsdämpande egenskaper och bullerreduktion.

Marwe rullskihjular tillverkas av utvecklade exklusiva materialer, som ger enastående vått grepp och hållbarhetsegenskaper.

Лыжероллеры для тренировок и соревнований

Marwe гарантирует высокое качество лыжероллеров на платформе из композитного материала (Carbon), а так же на платформе из алюминия, как для тренировок на открытой местности, так и для соревнований. Модели Marwe из композитного материала (Carbon) производятся вручную на основе той же усовершенствованной конструкции, что и беговые лыжи. Благо-

XC Snowfeel frame: Smooth as snow

SNOWFEEL
NANOCARBON
AIRCCELL CORE

The XC Snowfeel frame provides improved and outstanding vibration damping properties utilizing racing level cross-country ski technology.
